## TERMS OF ADMISSION.

Candidates for admission into the Freshman Class are required to write Latin grammatically, and to be well versed in Geography, Arithmetic, six sections in Smyth's Algebra, Cicero's Select Orations, the Bucolics, Georgics, and Æneid of Virgil, Sallust, the Gospels of the Greek Testament, and Jacob's Greek Reader. They must produce certificates of their good moral character. The time for examination is the Friday after Commencement. Candidates for admission into the other classes will be examined also in the books, which have been studied by the class, into which admission is requested. Scholars from other Colleges, before they can be examined, must produce a certificate of their regular dismissal. The Geography to be studied may be Morse's, Worcester's, or Woodbridge's.

N. B. *Particular attention to the writing of Latin* is urged as essential to a suitable preparation for the College Course.

# MEDICAL SCHOOL

## OF MAINE.

The Medical School was established by an Act of the Legislature, passed June 27, 1820, and is under the direction of the Board of Trustees and Overseers of Bowdoin College.—The Medical Lectures commence annually, about the middle of *February*, and continue three months. The fees for admission to the several Courses of Lectures are as follows: Theory and Practice of Physic \$15. Anatomy and Surgery \$15. Chemistry and Materia Medica \$15. Obstetrics \$5. The Graduation fee, including the Diploma, is \$10.

Candidates for the degree of Doctor of Medicine are examined by the Faculty of Medicine at the termination of each course of lectures.—They must have devoted three years to professional studies under the direction of a regular practitioner of medicine, and must have attended two full courses of Lectures, the last of which must have been at this Institution. They must pass a satisfactory examination in Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Obstetrics, Surgery, and the Theory and Practice of Physic: and must publicly read and defend a Dissertation on some medical subject. Those candidates, who have not received a collegial education, must satisfy the Faculty of their proficiency in the Latin Language and in Natural Philosophy.

Degrees are conferred at the close of the Lectures, and at the annual Commencement of the College in September.

The Library contains about 3000 vols., principally modern works, which have been selected with much care. It also embraces an extensive and valuable collection of Plates, among which are the splendid works of Albinus,—Vicq D'Azyr,—Cloquet,—Lizars,—Home,—Scarpa,—Cooper,—The Bells,—Baillie,—Bateman,—Breschet,—Swan,—Hooper,—Weber,—Seerig,—Cruveilhier, &c.

The Anatomical Cabinet, which was received from Europe, and formed in part the private Cabinet of the late Professor Thillaye, of Paris, contains all the preparations, which will be found necessary for demonstrations, and embraces many valuable specimens in Morbid and Comparative Anatomy.

The Chemical and Philosophical apparatus is ample and furnishes means for full courses of Lectures on these subjects.
